

Business Forecast, Fiscal Year (FY) 2018 Mid-Year Update

Public Law 100-656, Section 501, requires that Federal agencies make available their Business Forecast to the Small Business Administration and to interested businesses. This forecast is for informational and marketing purposes only and does not constitute a specific offer or commitment by MCC to fund in whole or in part any agency requirements referenced herein. It should be noted that the mission of MCC is to reduce poverty in foreign countries through economic growth. Therefore, the majority of MCC contract requirements are for services and goods to support numerous activities in low income, foreign countries. MCC does have a few, domestic, contracted base operation requirements.

This forecast includes anticipated contract actions that exceed the simplified acquisition threshold of \$150,000. This listing is not all inclusive.

Note: In November 2017 MCC implemented Oracle Contract Lifecycle Management (CLM) which integrated our financial and contracting systems. This forecast did not integrate previous data and reflects actual data entered into MCC's new Oracle CLM system as of May 2018.

Acquisition Plan Number	Department	Description	Estimated Value	Projected Award Quarter	Primary Compact Country	Type of Submission	Potential Procurement Strategy	Incumbent Contractor	POC	POC Email Address	POC Phone Number	Action Status
